1 Printing on the seam is not possible.

2 The button part can be same background or different background.

1 Avoid creating your t-shirt body design that flows onto the sleeves or front to back.

Front

Back

Side

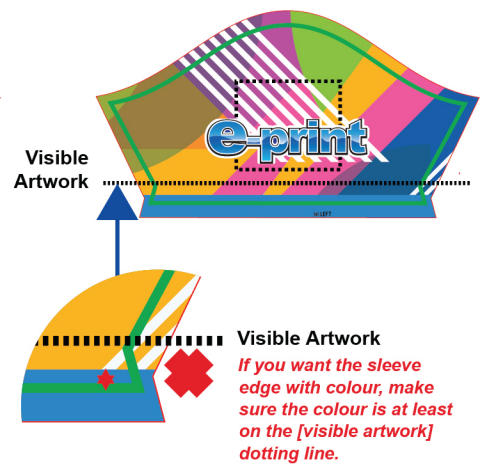

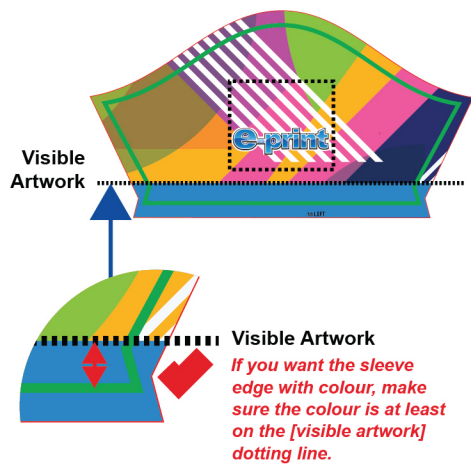

2 Avoid artwork design with large white areas.

- 3** Avoid using thin white lines in black colour background.

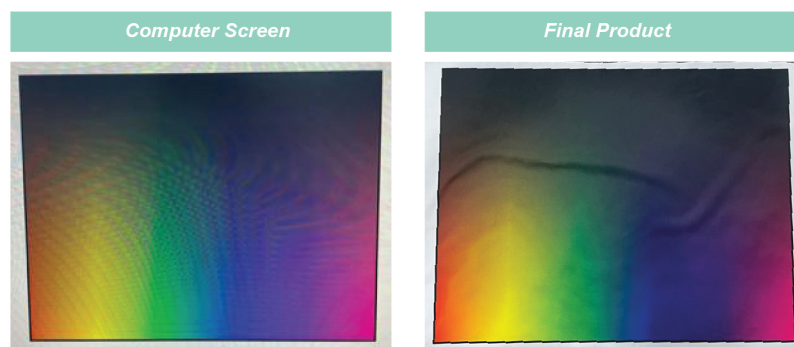

- 4** Avoid the sleeve edge with colour.

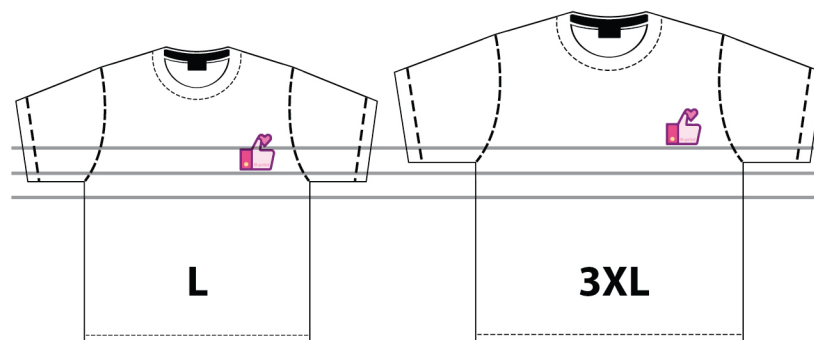

- 5** 100% rich black colour is not possible with sublimated tees as the fabric fibers can only absorb a certain amount of ink.

- 6** Gradients (colour to colour, not colour to transparency) can be used, but please note that the final product's dark colour range will be larger than your artwork.

- 7** Print will look different on different sized garments.
