Why Need This?

Gloss laminate is the most common type of lamination. One of the biggest advantages of gloss lamination is that it enhances color vibrancy and image quality on packaging materials, making them appear brighter and more vivid.

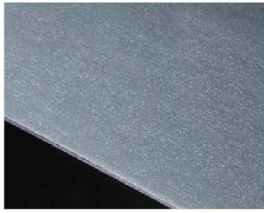

Gloss lamination is also scuff, scratch, and moisture resistant.

Why Need This?

Soft touch lamination looks like a standard matt lamination, but adds extra depth.

Choose Soft-touch Coating if You Need:

- A soft look and feel on your printed materials
- Fingerprint-resistant finish
- Printed pieces that do not yellow over time

Why Need This?

Matte lamination is like giving your packaging a silky smooth and non-reflective finish. Add in Spot UV which involves a clear, shiny coating applied to specific areas of artwork to create an eye-catching contrast.

Raised Foil

The Raised Effect

The embossed areas are thicker and have a slightly different texture, so allowing you to feel them.

The Foil Effect

Pressure and heat are applied to transfer metallic foil onto the paper. The foil shines out from the paper like real metal.

Raised Foil Colour

Gold

Silver

Why Choose Raised Foil

Economical Cost

Yes, it's more economical than traditional finishing if you wish to get both foils and raised effect.

3D Look

These raised foil areas are thicker, your customers can actually feel the design with their fingers.

Outstanding

The foil shines out from the paper especially when light hits the foil accents.
